DETAILED ACTION

1. Claims 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims introduce new matter into the disclosure. The added material which is not supported by the original disclosure is as follows:

a) the phrase "a flexible sheet of breathable polymer material" (cl 24, ln 9) lacks support in the instant disclosure. The above phrase is beyond the scope and breadth that is supported by the instant disclosure. There is support for "a breathable urethane foam sufficiently flexible to serve as a footwear insole material" (pg 6, lns 11-12 of the instant specification, emphasis added).

b) the phrase "a reservoir" (cl 24, ln 16) lacks support in the instant disclosure. The above phrase is beyond the scope and breadth that is supported by the instant disclosure. There is support for "a liquid reservoir."

c) the phrase "influencing means" (cl 24, ln 17) lacks support in the instant disclosure. The above phrase is beyond the scope and breadth that is supported by the instant disclosure. There is support for "a thermoelectric cooler/heating unit" (pg 7, lns 12-16).

d) the phrase "temperature conditioned means" (cl 24, ln 18) lacks support in the instant disclosure. The above phrase is beyond the scope and breadth that is

supported by the instant disclosure. There is support for "liquid or water" (pg 8, lns 16-18).

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. the following US patents teach the state of the art: 4736530 and 5538583.
